

Technical Specification | Pipe Clips

Grip Locks

Part no: Size 1 B6186 / Size 2 B6187
Size 3 B6188 / Size 4 B6189

Dimensions:

- Size 1 - W54mm x H30mm
approx pipe size:
1/4" liquid 1/2" gas
(allowing for insulation)
- Size 2 - W60mm x H32mm
approx pipe size:
3/8" liquid 5/8" gas
(allowing for insulation)
- Size 3 - W67mm x H37mm
approx pipe size:
1/2" liquid 7/8" gas
(allowing for insulation)
- Size 4 - W80mm x H46mm
approx pipe size:
5/8" liquid 1 1/8" gas
(allowing for insulation)

Bag quantity: 10

Benefits:

- Hinged for quick and easy pipe installation
- Wide metal components for good pipe support
- Space for electrical cables and condensate tube
- 8 microns of yellow colour passivate
- Fit directly to wall or solid ceiling
- For internal and external use

BBJ Grip Locks are particularly good for installers who, when installing the first pipe, can hold it within the Grip Lock whilst installing the second pipe.

Grip Locks are simple metal pipe clips that hold both liquid and gas lines. Designed to be fitted directly to the wall or solid ceiling, they can hold insulated pipes without a break in the insulation. Installation requires only one screw to be tightened.
